1364.0.15.003 - Modellers' Database, Sep Qtr 2014

Previous ISSUE Released at 11:30 AM (CANBERRA TIME) 11/12/2014

Summary

About this Release

The Modeller's Database consists of 122 quarterly time series constructed from the National Income Forecasting model. Some of the time series are published elsewhere by ABS while others are specifically constructed for National Income Forecasting model.

Explanatory Notes

Time Series Spreadsheet (I-Note) - Time Series Spreadsheet

To Our Subscribers:

The *Stock Valuation Adjustment - Excluding marketing boards (current price)* series, (VNEQ.AC_SVAC\$) has been discontinued. This is because there has been a change to the way in which data relating to Private Marketing Boards is compiled. Prior to September Quarter 2014, private marketing boards were maintained separate to the Wholesale division. This was due largely to a continuation of the separate treatment historically applied to these boards while they resided within the public domain. As the marketing boards are now within the private domain and have been for some years it has been decided that data for these boards be subsumed into Wholesale subdivision 33 Basic Material Wholesaling rather than maintained separately. The Quarterly Business Indicators Survey (ABS publication 5676.0) is the primary data source used by National Accounts for the Wholesale division. As a result, any series referring to these marketing boards either in isolation or excluding of marketing boards (such as the queried series) are no longer available.

We apologise for any inconvenience it may have caused you.
